Career Objective- Motivated Computer Science Engineering student with strong programming and problem-solving skills. Seeking an opportunity to apply technical knowledge and contribute to real-world software development.

Education

Bachelor of Technology (B.Tech CSE) 2024 - 2028
Symbiosis Institute of technology College, Nagpur

Academic grades

CGPA-8.18 ,GPA-8.50

Technical Skills

- Programming: C, Python, Java, javascript
- Web Development: HTML, CSS
- Database: MySQL
- Tools: MS Office, excel, jira, github, LinkedIn, VsCode

Specialization (Artificial Intelligence and Machine Learning**)**

Projects

1. **SYSTEM AND METHOD FOR AUTOMATED WATER TANK MONITORING AND PUMP CONTROL USING IOT**-Working on an automated water tank monitoring system using an ultrasonic sensor and microcontroller to control the water pump based on predefined water levels, providing an efficient solution for smart water management.
2. **LINK PREDICTION USING Graph Neural Network**-The model analyzes relationships between nodes in a graph to learn structural patterns.These patterns help identify hidden or missing links within the network.The system predicts potential future connections using graph-based machine learning techniques.
3. **MACHINE LEARNING DRIVEN COST OPTIMIZATION AND AUTO SCALING FRAMEWORK FOR CLOUD RESOURCES** is a system that uses machine learning to predict cloud resource utilization and support intelligent scaling decisions.

Petants

• I have successfully patented my first project titled "**System and Method for Automated Water Tank Level Monitoring and Pump Control using IoT**."

Certifications

1. Python Programming Certification(Red Hat Academy)
2. DSA Certification(Infosys Springboard)
3. RH124 -System Administration(Red Hat Academy)
4. Network Automation with Red Hat Ansible Automation Platform (DO457 - RHA)
5. Mastering Agentic AI: From Prompt to Protocols to Production(Infosys Springboard)
